

Manufacturing Engineering Technician – 2nd Shift

Millstone Medical Outsourcing is a fast-growing company in need of motivated individuals to assist in its expansion. We are currently seeking a full-time Manufacturing Engineering Technician to join our team. Millstone Medical Outsourcing's business focus is sterile and non-sterile packaging of medical devices. Millstone also engages in other activities, such as mechanical inspection and assembly, which are designed to meet the outsourcing requirements of medical device manufacturers seeking to reduce costs while maintaining high levels of quality, accuracy and timeliness. Millstone Medical Outsourcing is FDA and ISO registered and employs a detailed internal quality system to ensure ISO compliance.

Job Description

We are seeking a candidate who is eager to pursue an extremely rewarding career in the medical device industry. The individual in this position will be responsible for assisting the engineering team with the following duties:

- Conduct time studies for all steps of packaging operations in order to create standards and to verify that operation steps are maintaining standards
- Make updates to the system regarding process cycle times
- Perform data analysis and trending
- Investigate cost variances for discrete jobs
- Make recommendations to processes in order to increase efficiencies utilizing lean methodology
- Update system routings and bill of materials
- Assist in new product development and launches
- Ability to work in other areas as requested or required

Skills Desired:

- Mechanical Aptitude
- Mechanically inclined in the installation, set up and operation of production equipment
- Ability to record and interpret test data and compile reports
- Knowledge of GMPs (Good Manufacturing Practices)
- Proficient in the use of Microsoft based applications
- Ability to work in a team environment
- Excellent communication skills
- College degree is preferred
