

Senior Application & Solution Architect

Millstone Medical Outsourcing, headquartered in Fall River, MA is a fast-growing company in need of motivated individuals to assist in its growth. We are currently seeking a talented Senior Application & Solution Architect to join our IT team for our **Fall River Facility**. Millstone Medical Outsourcing's business focus is sterile and non-sterile packaging of medical devices. Millstone also engages in other activities, such as mechanical inspection and assembly, which are designed to meet the outsourcing requirements of medical device manufacturers seeking to reduce costs while maintaining high levels of quality, accuracy and timeliness. Millstone Medical Outsourcing is FDA and ISO registered and employs a detailed internal quality system to ensure ISO compliance.

Description

The role of the **Senior Application & Solution Architect** is to design, implement, direct and manage all IT development and integration projects. This includes leading team members, consultants & contractors throughout the lifecycle of projects. The Senior Applications Architect will also be the primary contact for customers and will be responsible for understanding customer business practices, systems and identify where system integration, modifications, customizations or other special requests from the customer are needed. This role requires strong technical and functional knowledge of Oracle EBS Applications.

Responsibilities

Strategy & Planning

- Ensure that applications meet business requirements and systems goals and they fulfill business and customer requirements
- Review and analyze existing applications effectiveness and efficiency, and then develop strategies for improving or leveraging these systems
- Cultivate and disseminate knowledge of application-usage best practices
- Collect and document business requirements, technical requirements and process flows

Acquisition & Deployment

- Effectively manage project teams' time and allocate resources to ensure deliverables are completed
- Research and make recommendations on software products and services in support of procurement and development efforts
- Design, develop, and install application enhancements and upgrades
- Coordinate feasibility studies for software and system products under consideration for purchase, and give advice based on findings
- Liaise with company's software suppliers for prompt rectification of any problems or emergencies.

Operational Management

- Provides solutions to complex business problems for area(s) of responsibility where analysis of situations requires knowledge of technology, industry requirements and/or business functions
- Able to effectively articulate solutions and discuss business problems with senior clients, positively influencing outcomes
- Manage and provide direction for the application team in support of business operations

- Liaise with network administrators and software engineers to assist with quality assurance, program logic, and data processing

Position Requirements

Formal Education & Certification

- Four-year college diploma or university degree in computer systems design or computer science, and/or 8 plus years equivalent work experience.
- Certifications in Scrum, PMP, ITIL and others a definite plus

Knowledge & Experience

- 5 plus years direct experience designing & managing applications and/or systems management.
- 5 plus years providing functional analysis, design, configuration and testing support for Oracle EBS
- Proven experience in overseeing the direction, development, and implementation of software solutions
- Strong knowledge of system and software quality assurance best practices and methodologies
- Extensive experience with core software applications, including Oracle EBS & Cloud
- Good project management skills and/or substantial exposure to project-based work structures
- Excellent understanding of the organization's goals and objectives
- Knowledge of applicable data privacy practices and laws

Personal Attributes

- Excellent written and oral communication skills
- Excellent listening and interpersonal skills
- Strong customer-service orientation
- Ability to communicate ideas in both technical and user-friendly language
- Highly self-motivated and directed
- Keen attention to detail
- Ability to effectively prioritize and execute tasks in a high-pressure environment
- Experience working in a team-oriented, collaborative environment

Work Conditions

Occasional evening and weekend work to meet deadlines

Physically able to participate in training sessions, presentations, and meetings

Some travel may be required for the purpose of visits to Olive Branch, MS or customer locations as needed
