Millstone Medical Outsourcing is looking for an energetic individual to join its Engineering Department as Validation Engineer. Millstone is a fast growing, fast paced medical service provider for the top Orthopedic companies in the industry. Millstone's business focus is sterile and non-sterile packaging of medical devices. Millstone also engages in other activities, such as mechanical inspection and assembly, which are designed to meet the outsourcing requirements of medical device manufacturers seeking to reduce costs while maintaining high levels of quality, accuracy and timeliness. We are FDA and ISO registered and employ a detailed internal quality system to ensure ISO compliance.

Responsibilities Include:

- Document and execute equipment and process validations (IQ, OQ, PQ) on various types of manufacturing equipment and end-of-line processes
- Creation of manufacturing work instructions
- Interface with customers on technical issues, project timelines, and validation support
- Actively participate on cross functional teams to determine the root cause and corrective actions for problems associated with investigations
- Provide support for operations and communicate with Program Managers
- Provide training of operations personnel

Skills Required:

- Bachelor's degree in Engineering required
- 1 – 5 years relevant experience
- Strong technical writing to develop client process validations
- Excellent communication skills
- Excellent attention to detail, analytical and problem-solving skills
- Experience with IQ, OQ and PQ protocols
- Knowledge of GMPs

For Additional Information:

Millstone Medical Outsourcing offers a competitive salary, health, dental and vision benefits beginning on the first day of employment and 401K with company match.
