Millstone Medical Outsourcing, headquartered in Fall River, MA is looking for an energetic individual to join its Quality Team as Quality Assurance Specialist/Microbiologist. Millstone is a fast growing, fast paced medical service provider for the top Orthopedic companies in the industry. Millstone's business focus is sterile and non-sterile packaging of medical devices. Millstone also engages in other activities, such as mechanical inspection and assembly, which are designed to meet the outsourcing requirements of medical device manufacturers seeking to reduce costs while maintaining high levels of quality, accuracy and timeliness. We are FDA and ISO registered and employ a detailed internal quality system to ensure ISO compliance.

Job Description:

The Quality Assurance Specialist/ Microbiologist is primarily responsible for overseeing the environmental monitoring program, reviewing and approving sterility validations and quarterly dose audit reports, and providing input on the post sterilization release process. Additionally, the position will include facilitating Millstone's CAPA system which involves working within a team environment across multiple sites to investigate, determine root cause, and develop and implement corrective actions. The QA Specialist/ Microbiologist will also be asked to participate in internal and external audits and to perform special projects as needed within the Quality department.

Skills Required:

Optimal candidates will possess excellent verbal and written communication skills as well as interpersonal and customer service skills. High attention to detail and the ability to work in a team environment are essential. Ability to multitask and complete work independently is crucial. Excellent problem solving and decision-making skills are needed. A Bachelor's degree in Microbiology along with two to five years of experience is required. Experience in ISO 13485 and FDA environments is required.
